

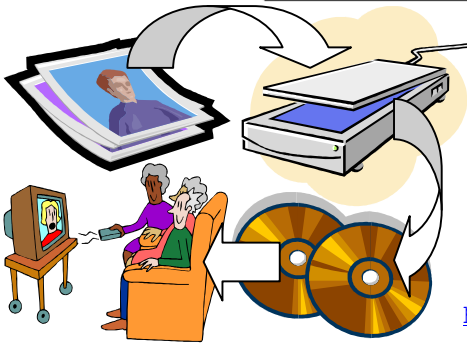

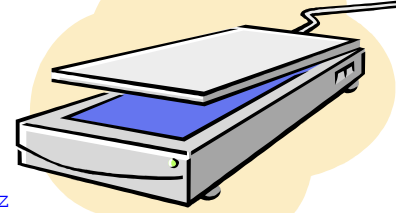

# PHOTOGRAPHIC TRIBUTES ON DVD

[photographictributes@paradise.net.nz](mailto:photographictributes@paradise.net.nz)

Imagine a slide show of your photo and slides, backed by your favourite music. As seen in funeral services, it's now available for birthday surprises, anniversaries, or as a family heirloom to be passed on to other generations, thus preserving your history.

Each photo or slide is scanned, enhanced, made printable, and saved onto a separate archive picture-CD.

The presentation slide show is then produced onto a region free DVD, and both the dvd and cd are supplied in a durable twin DVD case, with a unique slipcover designed from the subject.

## Comments from clients:

- "We used it during our Wedding, while we took time to sign the register, the presentation showed our engagement party photos and ended by introducing us as Mr & Mrs!"
- "Photos and slides that were once hidden away in albums are copied and now being viewed by new generations. We no longer have all of our eggs (photos) in one basket (location)."
- "After our world trip, we sorted our many photos into countries, and each became a separate presentation. This meant nobody had to sit through the whole lot at once."
- "It was a treasured surprise for our mother's 70<sup>th</sup> birthday, she had everything else".
- "We wanted those who attended our father's funeral to view his life from infancy to completion. We celebrated his life projected onto a wall in a slide show with music. We had created new memories during a time of sadness. I now want to organise another for my late Grandparents as a memorial event on the anniversary of their Wedding."

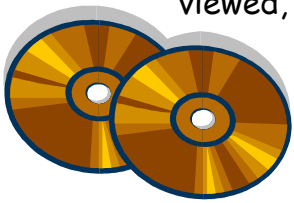

If you are interested, the procedure has now been perfected to the point where a "This is Your Life" styled presentation can be played on any DVD player, and either projected, or screened on a T.V. according to your resources.

**Photographs** regardless of how small, are enlarged and copied.

You would apply the table below when you wanted more than one presentation on the same DVD.

Another idea is to use it for your overseas trip, and have a separate presentation per country.
