Poster files to be emailed to: alowhum@gmail.com

Poster files should be supplied as 300dpi jpeg, bmp or gif. Make sure that each colour is sent as a separate file. Any extra file manipulation required will be charged for. Posters are screenprinted, a process which doesn't print graduations and shades very well. Just block colours only, and please specify pantone numbers for colours if you want a close colour match.

Kick ass poster design available as well, email for details.

All prices include set-up, printing and delivery to one NZ address. Posters take 2 weeks from receipt of correctly formatted files. For a rush job of 1 week, add on 25%. Prices above are for locally owned businesses, unsigned bands or bands on independent labels. If poster is advertising a band on a major label, add 25%
