	Division Rifle Battalion	4 x Infantry Stands	
	Division Engineers	1 x Engineer Stand	

Notes:

- All Turkish forces are classed as Green
- Turkish forces are subject to reduction as per GWSH rules page 56
- There are enough Level 1 trenches available for any Turkish troops setting up in the woods east of the Tigris
- Two Turkish regiments must start the game set up to the east of the Tigris. The Turkish commander may place one pontoon bridge at a place of his choosing across the Tigris, before either side draws orders arrows at the start of the game.
- During the game a pontoon bridge can be built by one Engineer stand or two infantry stands in 4 turns. There are limits to the extent to which this time can be reduced by adding additional stands: two turns is the minimum number of turns to build a pontoon bridge.
